Dear Sir:-

It will be a small matter for you to drill and re-tap the die-holder, so we sent you by express this morning three 9/16" screws and nuts; also a set of 9/16" taps and a proper size drill for drilling and tapping the die-holder in your Ferracute coining press. After using the tools please return same to us by express. We trust these larger screws will remedy the difficulty you have experienced.

Yours truly,

Ferracute Machine Co.,
